

## Personal Watercraft Operator (PWC)

This is a 1 day theory and practical course designed to cover the requirements for the safe operation and maintenance of a personal watercraft. As well as the theory component, the instruction will emphasize the practical applications of handling a PWC on the water. Candidates should be 16 years of age or over. Please note however, if there are local laws in place in specific area of operation of a PWC, those laws will of course supersede IYT's minimum age requirement.

Since we are based in Arizona, this course will be taught using The Arizona Boating Safety Handbook ([free downloadable version](#)). If you require a permit or license for use in another state, please let us know so we may familiarize ourselves with those rules and help you mee that state's requirements.

Successful completion of this course will have the student thinking about the following:

- a. Safety for yourself.
- b. Safety for your passengers.
- c. Safety for others on the water.
- d. Have fun...!
