

Small Powerboat & RIB Master Training (online & MCA Recognized)

Online 'Preparation' Theory Course.

Students may study and obtain all the theoretical knowledge to obtain the Small Powerboat & RIB Master Certificate FREE via eLearning. We hope students will choose to proceed to an IYT Partner School to complete the practical training and gain the Small Powerboat & RIB Master Certificate of Competency. To do so, we require payment for the "Theory Completion Certificate". This certificate must be presented to the school where you will receive practical instruction and challenge a final practical examination. After successful completion of the practical examination, you will be awarded the Small Powerboat & RIB Master Certificate of Competency which is recognized by the MCA (Maritime and Coastguard Agency, Britain) and charter entities worldwide.

Small Powerboat and RIB Master – MCA Recognized

A 3-day Theory and Practical course designed to cover the requirements to meet the Small Commercial Vessel Code and the requirements for issue of an ICC based on Resolution 40 from the Economic Commission for Europe Inland Transport Committee Working Party on Inland Water Transport.

This is a 2-day in person practical course for candidates that have completed the online Small Powerboat & RIB Master eLearning course.
